Da. J. C. Arzs. Sir: I have been repeatedly cared of your Fills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do not, the fact is worth knowing.

Their regulating action on the Neer is quick and dadded, consequently they are an admirable remedy for derangements of that gam. They have done my wife more good than I can tell you.

Sie had been sick and pining away for months. Went

then commonced taking your Pills, which soon cared her,
by expelling large quantities of worms (dead) from her
body. They afterwards cured her and our two children
of bloody dysoutery. One of our neighbors had it bed, and
my wife cured him with two dones of your Pills, while
others around as paid from five to twenty dollars doctors'
bills, and lost much time, without being cared entirely
even then. Such a medicine as yours, which is actually
good and honcest, will be prized here.

and for the relief of consumptive patients in advanced and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the favorities in any civilited country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them among living templey of its wisters; river the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dengerous diseases of the pulmonary organs, it is also the pleusantist and safest remedy that can be employed for infants and young persons. Parents should have it in store against the institus enemy that steals upon them unprepared. We have abundant grounds to believe the Coerry Petrorul aves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexonable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know to: the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spars no cost, no care, no toil to produce it the most perior passible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

Wheat and Flour. Wheat and Flour.

THE subscribers have completed the most perfect arrangement that can be made for the sale of Wheat and Flour, and during the remainder of this year will devote their attention almost exolusively to the sale of these two articles, and they can say to their patrons, with certainty, that they will realize as much net money by shipping here as to any market beyond Atlanta, and will do it with less risk and in shorter time. As to the peculiar advantages of our market every one is familiar who knows its locality.

We will accept 30 days bills on Wheat, payable here or at Augusta, for three fourths the value of shipments, accompanied by Rail Road receipts. We think it advisable for shippers of Flour to draw most of their bills at 45 and 60 days, as more time is required for the sale of Flour than for Wheat. By reference to our weekly reviews of the market, published in the Tennessee papers, you can always know accurately what these articles are worth.
